

Northland Shopping Centre, Preston

Case Study

Located approximately 9 kilometres north of the Melbourne CBD, Northland Shopping Centre is part of the retail property portfolio of Vicinity Centres.

As part of an accessible door upgrade to the accessible toilets and parents room, record Automatic Doors was selected to supply and install 3 off STA 21 single sliding door operators, with 12mm Matelux acid frosted translucent frameless glass door wings.

The parents lounge entry has standard push buttons for entry and exit while the 2 off accessible toilet doors have the record DTS personal security entry set, which includes large engraved access/egress plates with soft touch buttons, LED indicator lights and braille.

For these entries the record STA 21 operators offers quiet, consistent and reliable operation. Each door has infrared safety sensors, failsafe electric brake locking and a master override key switch.
