

Macquarie Corporate Centre, Macquarie Park

Case Study

Macquarie Corporate Centre is a 12 storey state of the art commercial office tower, designed by WMK Architecture and located at 2 Banfield Road, Macquarie.

In addition to a Diamond Series revolving door and DFA 127 automatic swing door operator to the main entrance, record supplied and installed an STA 22 heavy duty sliding door operator to the adjacent internal entrance.

The 2800mm high x 2000mm frameless glass door panel weighs 210kg with activation and safety achieved via record RIC 290 sensors mounted on both sides of the entrance. The 200mm high aluminium pelmet was also powdercoated black to match the surrounding framing.
